

Date : 26. May. 2019

Time	Course	
13:30 pm	Departure from Jeju University	
14:40 pm	 <p>Seongsan Ilchulbong (UNESCO World Natural Heritage)</p> <p>Seongsan Ilchulbong Peak, which is 180m above sea level, erupted underwater in the ocean about 5,000 years ago, which makes it a very rare case among the many craters in Jeju Island.</p> <p>A scene in the movie 'Lee Chang-ho's Baseball Team' (directed by Lee Chang-ho) was filmed here.</p> <p>Though people used to farm in the area, it is now a natural habitat for 200 types of vegetation such as silvergrass, vine, Pseudosasa japonica, and giant angelica as well as a natural habitat for a variety of wild animals. Seongsan Ilchulbong has long been considered one of the best scenic destinations in Korea. It was designated a Natural Monument on July 19, 2000. It was recognized for its outstanding landscape and geological value by UNESCO on July 2, 2007, when it was added to the World Heritage List. And in October 2010, it was named a Global Geopark site. 1 hour before the sun rises and until the sun sets.</p>	
16:40 pm	 <p>Geomun Oreum Volcanic cone (UNESCO World Natural Heritage)</p> <p>Geomun Oreum Volcanic Cone, a UNESCO World Heritage, was given its name due to the unusually black color of its rocks and dirt, which gave it a dreary atmosphere. Etymologically, it means a numinous mountain. It is Korea's representative ecological tourist attraction, having been chosen as one of the 20 eco tour sites by the Ministry of Environment in 2009 and as one of the 10 models for Korean eco tour by the Ministry of Environment and Ministry of Culture, Sports and Tourism in 2010.</p> <p>4D Video Room – Unique Jeju-based show</p> <p>Watch a 4D film that combines Jeju's breathtaking scenery with local legends. The film was shot, partially from the air, at Manjang Cave, Gimnyeong Cave, Geomunoreum, Bijarim Forest, Jeongbang Falls, Andeok Valley, Seongsan Ilchulbong, Mt. Halla and Baeknokdam.</p>	
18:00 pm	Dinner Menu	 <p>Grilled black pork</p>
